

All of our wipes kill 99.99% of germs including viruses, bacteria, fungi and spores within a minute. They also have a protective residue, which lasts 30 days.

Our unfragranced tub wipes come in packs of 500 and are pulled out through the red flap on the lid for easy use. These are biodegradable & made in the UK reducing carbon footprint

The cannister wipes are in a compact pot which holds 200 wipes and are very strong. The wipe can be pulled out of the slot in the top. These are unfragranced and not biodegradable.

Our Antiviral biodegradable wipes (50 pack) are pomelo fragranced for hands and surfaces, made in the UK.

The biodegradable single sachet wipes are unfragranced & made in the UK
